If you find yourself a victim of a cyber attack where your personal information has been compromised, it's crucial to take immediate action. Here's what you can do:

__Report to Local Authorities:__

Police: File a report with your local police department. This creates an official record of the incident.

FBI: If you're in the U.S., you can report cyber crimes to the FBI's Internet Crime Complaint Center (IC3).

__Contact Financial Institutions:__

Banks and Credit Card Companies: Inform them about the breach. They can monitor your accounts for suspicious activity and may issue new cards.

__Credit Reporting Agencies:__

Place a Fraud Alert: Contact one of the three major credit bureaus (Equifax, Experian, TransUnion) to place a fraud alert on your credit report.

Credit Freeze: Consider freezing your credit to prevent new accounts from being opened in your name.

__Identity Theft Protection Services:__

Enroll in a Service: These services can help monitor your personal information and assist in recovery if your identity is stolen.

__Monitor Your Accounts:__

Regular Checks: Keep an eye on your bank statements and credit reports for any unauthorized transactions or accounts.

__Change Passwords:__

Update Credentials: Change passwords for all your accounts, especially those that may have been compromised. Use strong, unique passwords.

Report to the Federal Trade Commission (FTC):

IdentityTheft.gov: File a report with the FTC, which can provide a recovery plan and guide you through the process. File a report with your local police department. This creates an official record of the incident.

FBI: If you're in the U.S., you can report cyber crimes to the FBI's Internet Crime Complaint Center (IC3).
